DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 6, and 8-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Re: claims 1 and 14. The phrase “wherein said weight is held movably with respect to all the directions in the plane and immovably in the vertical direction perpendicular to the plane only by said first two, second two, third two and fourth two of said leaf springs” recited in claim 1 along with the comparable phrase recited at the end of claim 14 are not supported by the originally filed disclosure. The specification indicates that the vertical direction with respect to which the weight is held immovably is the vertical direction V. *See lines 4-6 from the bottom of page 8 of the instant specification.* As best understood, figure 2 and figure 5 present the cross-section showing the arrangement of the weight 2 with respect to the vertical direction V. As shown in both figures 2 and 5, the weight is held immovably in the vertical direction V by

the wall portion 23 and not *only by the springs* as recited in amended claims 1 and 14.

The remaining claims are rejected due to their dependency from claim 1.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 6, and 8-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re: claim 1. The phrase "said first two, second two, third two and fourth two of said leaf springs" is indefinite in light of the fact that Applicant previously recited "at least a first two", "at least a second two", etc. It is unclear to the Examiner whether Applicant intends for the first springs to be limited to two or whether Applicant intended to refer back to --said *at least a first two*-- to maintain the possibility of the first springs including more than two. The same issue exists for the second two, third two, and the fourth two. Clarification is required. The remaining claims are indefinite due to their dependency from claim 1.

Allowable Subject Matter

5. Claims 1, 6, and 8-14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st and/or 2nd paragraph, set forth in this Office action.

Response to Arguments

6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
